

Foreword

Welcome to this special issue of Clinical Theriogenology centered around the topic of andrology.

Great thanks to Augustine Peter (Editor), John Kastelic (Copy Editor), Emma Csemiczky (Production Editor) and to this journal for supporting this work and to those colleagues who provided manuscripts.

A special thanks to the members of the Association for Applied Animal Andrology (AAAA) for their contribution to this issue; please plan to attend AAAA 2026 meeting in Obihiro, Japan (<https://animal-andrology.org/>).

The collection of case reports, review articles and research studies included in this special issue highlights the diversity, complexity, and beauty of male reproduction.

We hope you enjoy this issue as much as we enjoyed putting it together.
