

A note of appreciation

Despite their **busy schedules**, the following scholars graciously **accepted** invitations to review manuscripts submitted to Clinical Theriogenology and provided **timely and thoughtful evaluations**. The Editor, Copy Editor (John Kastelic), Design Editor (Ahmed Tibary), Editorial Board members, theriogenology associations (Society for Theriogenology, American College of Theriogenologists, and Theriogenology Foundation), and Franz Management thank them for their **time and effort**.
