

A note of appreciation

Despite their **busy schedules**, the following scholars graciously **accepted** invitations to review manuscripts submitted to *Clinical Theriogenology* in 2020 and provided **timely and thoughtful evaluations**. The Editor, Copy Editor (John Kastelic), Editorial Board members, theriogenology associations (Society for Theriogenology, American College of Theriogenologists, and Theriogenology Foundation), and Franz Management thank them for their **time and effort**.
